Coinmining is one of the best mining company in the mining world. Coinmining is a mining platform that offers investors to mine their BTC and generate new BTC from that. They also provide different packages to increase the earning speed.

Start mining for FREE or find a plan that's right for you..

Coinmining provides affiliate program for people who would like to earn additional income with the help of sharing their referral link on social media, family members or friends. You can earn commission from their active deposit.

You can invite your friends or share your referral link on social networks, blogs or forums online. For massive results we recommend you to advertise your referral link on platforms such as [BTC Clicks](#). You can also [Upgrade Coinmining](#) to increase affiliate rate up to 100%.

This is not a Ponzi scheme. I can say that people who say this is Ponzi scheme they never understand what a Ponzi scheme is. In a Ponzi scheme, they ask you to invest money before starting any process. Coinmining is not asking you to invest some money to start the mining process.

It is very easy processes you do not need to sign up or log in [just enter your Bitcoin address and start the mining](#).

Choose your version

There are four packages available on Coinmining like Tier1 to Tier4 and you can upgrade your package after login on the home page just pay for that package and enjoy your earning.

Choose premium version below to increase your affiliate program bonus and earn much more!

How to avoid cryptocurrency mining scams:

- Thoroughly research any cloud mining operation before signing up. Does it use https? Does it have a public mining address? How long has it been in business? Can you find any legitimate reviews from other users? Does the site have a registered domain name? Can the company provide proof of equipment?
- Be extremely wary of companies that "guarantee" profit.
